Changes Announced For Albany School District

It will be back to school again for approximately 2,500 Albany students on Monday, Sept. 13. Elementary and primary schools will commence at 8:50 a.m., while classes at Albany High School will start at 8:40.

According to Kenneth M. Forry, superintendent, slight decreases in school enrollments are anticipated, especially at kindergarten and primary levels, following a state-wide trend brought about by decreases in the birth rate over the past five years.

Anticipated enrollments at the five schools are: Cornell, 725; Marin, 625; Vista Primary, 150; MacGregor Primary, 150; and Albany High School, 850. Over 300 pupils are expected from University Village, with the greatest percentage of these enrolling in kindergarten and primary levels.

Students will find some new teachers on the staff to greet them on the first day of school. New teachers at Cornell will be: Miss Linda Goodsell, Special Education; Miss Cynthia Bradley, Kindergarten; and Miss Sheila Kelly, School Nurse, who is replacing Mrs. Frances Tilbury, who retired at the end of last term after serving for 26 years as school and public health nurse in Albany. Miss Kelly will also serve as school nurse for Vista and MacGregor Primary Schools.

At Marin School Mrs. Mei-Ling Shiroishi, the new seventh grade teacher, will be taking the place of Mrs. Bernadette Mulera, who retired after 12 years of service. There will also be a new school librarian and physical education teacher, the names to be announced at a later date.

New to Vista School will be Mrs. Barbara Tomlinson, assigned as a primary grade teacher; while the new Spanish teacher for Marin and Cornell Schools will be Mrs. Niella Dominguez.

New staff members at Albany High School include: Miss Karen Houston, Social Studies; Richard Lohman, Mathematics; Miss Val-

erie London, French; William Pandiani, Mathematics; Mrs. Constance Woulf, Journalism and Social Studies, and Jesse G. Morales, Spanish.

Miss Carol Swain has been assigned as the new ESEA, Title I Coordinator, while Mrs. Myra Windmiller will serve as part-time Psychometrist. Orville Perkins has been re-assigned at Cornell as a sixth grade teacher, and Mrs. Glenda Gentz will serve as part-time Remedial Reading teacher for Vista/MacGregor schools.

TESTIMONIAL DINNER

You are cordially invited to attend the Testimonial Dinner in honor of Mrs. Nell Curran, Saturday, Sept. 25, at Goodman's, 10 Jack London Square, Oakland.

Contact Albany Park and Recreation Department or Marilyn Jackson, 526-2463, for further information.

Horticultural Help Offered

John Duncan, chairman for the Albany Beautification and Improvement Committee, has announced the appointment of Lotte Moody Sandford as the new committee secretary, replacing Mrs. Frances Willison, who has resigned.

Chairman Duncan has also issued the following statement to Albany citizens: "We on ABIC stand ready to help any citizen or group, who needs help in making Albany a prettier city."

If you are having difficulty in making a special plant grow well in your front garden, give us a ring. If you are seeking an answer to a horticultural problem, we can certainly find the solution for you."

Pet Show Awards

A chinchilla owned by Carl Hill (811 Jackson) stole the limelight from other more conventional pets in the Albany Park and Recreation Department's Pet Show on Saturday, Aug. 28, at Memorial Park. While the chinchilla was awarded the "Most Unusual Pet" prize, Katie Rubin's (899 Hillsdale) German Shepherd was named "Best Pet" in the show.

Judges Frank Graeber, Vic Martino and Marco Meniketti also awarded prizes for best, cutest and smallest cat; best, biggest and smallest dog; and similar distinctions for reptiles and rodents. Other prize winners included Katie Zapata, 912 Ventura; Jay Coco, 3347 Yosemite, Berkeley; David Levy, 1430 Portland; Karen Bradley, 922 Kains; and Carla Alferness, 1002 Ordway.

Numerous spectators and a full field of participants contributed to the success of the annual affair.

An Editorial

With this week's edition, the Albany Times will be entering its 38th year of publication.

As in the past, the Albany Times would like to reiterate its devotion to the City of Albany—first, last and always, and its wholehearted support of any movement or organization which strives to boost Albany business firms. And again, the Albany Times urges its readers to support local merchants.

The appointment was made approximately two months before his present term on the board actually expired.

Volunteer Now

Volunteers are urgently needed to help prepare the more than 350,000 Christmas Seal Campaign mailing envelopes for the 1971 Christmas Seal Campaign of the TB and Health Association of Alameda County. The call for volunteers was issued today by Association Board President, Alan L. Bingham.

Individuals, as well as groups, are invited to help with the program to assemble these Christmas Seal packets for Alameda County residents. Those interested are urged to come to the Association office, 1537 Webster Street, Suite A, Oakland, Monday through Friday, from 9 a.m. to 4 p.m. Beverages will be supplied by the Association for those who wish to bring lunches.

Last year, 369 volunteers gave 6,150 hours of service. Service awards are made yearly to volunteers with 100 or more hours of service.

The 1971 campaign, due to kick off in November, cannot get underway until more than 30,000 pounds of seals have been packaged.

"As true today as it has been over the past 61 years, the success of this campaign to fight TB, emphysema, other respiratory diseases, and air pollution, depends upon the generous help of many volunteers," Bingham said. "This year there is more to do. We need more help."

Auto Class For Albany Women

Ladies—are you baffled and perplexed, yet curious and interested, when such automotive terms as "valves," "points," or "brushes" are overheard in conversations?

Perhaps you prefer to smile with a charming (yet blank and glassy-eyed) expression when a mechanic informs you your car is long overdue for a new set of "rings." Comparable situations arise frequently among women drivers.

Due to many requests, the Albany Adult School has scheduled a special "Automotive Fundamentals" short term course for women only.

The course will be presented in a clear, unhurried pace with major automotive parts being identified, and their interrelations carefully explained.

A typical class session will include a short lecture about an important automobile component and its functions; appropriate motion pictures and slides will be shown related to the evening's topic; observations of actual "on the car" materials, plus an opportunity for questions and answers.

Classes will be held on Wednesday evenings from 7:30 to 9 p.m.

For further information call 526-6441 between 8:30 a.m. and noon, and 1 to 5 p.m.; or 525-7131 evenings from 6:30 until 10.

Hospital Ball Changes Noted

A long-standing tradition will change this fall when Alta Bates Hospital in Berkeley supplants its formal Red and White Ball with an informal Hawaiian Holiday.

And not only will the dress change; so will the time of year and the locale. The formal ball traditionally was held as close as possible to Valentine's Day. Now it's been moved up to October 2 and into Goodman's at 10 Jack London Square.

The hospital's Hawaiian Holiday will be one of the first major events in the newly-redecorated Goodman's.

Invitations will be extended by the Board of Trustees, the Medical Staff, and the Alta Bates Volunteer Association, with the actual arrangements for the first-time event handled by Mrs. Robert Baldwin, Jr., and Mrs. John Windesheim of Berkeley, members of the Volunteer Association.

Joe Kealoha and his group will play Hawaiian music through cocktails and dinner, and Junius Courtney's orchestra will take over at 9 p.m. for dancing until 1.

Mrs. George Casey, Jr., of Oakland will add the Hawaiian touches to the new decor at Goodman's and Mrs. William Larimore of Berkeley is taking reservations.

On Mrs. Casey's committee are

Oktoberfest USA Coming

During the two weekends of Oktoberfest USA last year, more than 200,000 steins of beer were served for the "Ein Prosit" cry goes up every time a freshly kegged beer is opened during the Bavarian Beer celebration, making it one of the largest beer festivals in California.

Oktoberfest USA happens on the last weekend in September and the first weekend in October. This year Freeways 680 and 580 are jammed, as 60,000 people are expected into the Alameda County grounds in Pleasanton, where the festival is held annually. This year almost a thousand more people are expected to attend this Old World celebration.

In the annual Pleasanton Oktoberfest, lederhosened men and women in traditional Bavarian costumes are feasting and singing. Bavarians have been repeating the fall festival for over a century.

Oktoberfest is an Alpine festival that originated in 1810 during the first of the hops by a prince and princess to celebrate their wedding marriage. Each year since, Munich has been celebrating with all the excitement that

is linked with this most popular celebration.

Four things have gone into making Oktoberfest USA in Pleasanton one of the most popular fall festivals in the area—non-stop entertainment, quantities of hearty German food, beer, and of course, people. The event has become a family outing delight. For while parents have fun the children are entertained by the carnival, rides and game booths, and the Pleasanton Girl Scouts provide a free baby sitting service for the tiniest tots.

Joe Smiell and his Big Bavarian Band will again go non-stop through both weekends, playing Old World melodies for those who love folk dancing, and for the thousands who sit row after row at the long tables that fill the Main Hall.

Al Fassler will join the entertainment on the second weekend, when he and his Swiss Band open up the second hall; and all during both weekends folk dancers, alpenhorn players and specially talented Bavarian entertainers will delight the crowds.

Albany Artists Invited To Enter TB Competition

Albany artists are invited by Alameda County TB & Health Association president, Alan Bingham, to enter the nationwide competition for the design of the 1973 Christmas Seal.

A \$1,000 cash award will be given the artists whose design is chosen to spearhead the annual drive against emphysema, tuberculosis, and other respiratory diseases and air pollution, Bingham said. The design itself will appear on the Christmas Seals mailed to millions of U.S. homes during the 1973 holiday season. It also will appear on posters, bill boards and television screens.

Production schedules require that the Christmas Seal design be selected two years in advance of issue, the Association president explained. Deadline for entries is October 1, 1971.

Contest rules and information and copies of Christmas Seal designs from 1907 to 1970 are available from the local Association office, 1537 Webster St., Oakland.

Alpha-Dynamics

"Alpha" is a frequency of brain electrical activity that, when mastered and strengthened, enables you to totally relax at will, and thus reduce tension and improve your health; and to enhance your total awareness through all of the 5 senses, which facilitates learning and makes life wholly more enjoyable—and masterable.

By learning to master "alpha" as we teach it you'll learn ESP as well. This may stretch your credulity. We do, however, guarantee the program on a complete money-back basis. You will do ESP and learn how to USE it to enrich your life. You'll learn, too, a number of invaluable techniques of mental control that you have heretofore considered to be abilities of only gifted individuals.

The alpha revolution will be THE revolution of the 1970s. Remember this modest ad.

Hear a lecture on Alpha-Dynamics, ESP, and mental control at the Linton Business School, 9959 San Pablo Avenue, in El Cerrito (across from the El Cerrito Shopping Center), at 7:30 p.m. Sunday and Monday evenings, September 12th and 13th. Admission \$3.00. Speaker, Alan D. Kent.

Albany Lions have been studying collective nouns ... trying to find the best word to describe a group of Lions, and came up with quite a few—a flock of sheep, a heard of buffalo, a drove of oxen, a clutch of eggs (?), a school of fish, a swarm of bees, a covey of pigeons, a gaggle of geese, a bevy of quail (also of girls), and a murmuration of starlings. The final consensus was—"A Pride of Lions."

Those interested in applying for Civil Service positions in the near future would be wise to check on the Civil Service Course being offered by the Albany Adult School. Fire Plug

Everyone should try to help stop "pollution" by fire!

Fire pollutes our environment as much as fume-filled air, waste-filled water and litter-filled land. Increased vigilance against fire is the only way to reduce its destructive effects on our environment.

As it is now, in a single year fire claims 12,200 lives in the United States alone, and costs the nation \$2.8 billion in property destroyed by this needless waste. National Fire Protection Association figures also show that there were 2,465,000 separate fires in the country last year, 504 of them costing at least a quarter of a million dollars each.

This is "pollution" where it really hurts—physically, emotionally, financially—in every way.

As with other kinds of pollution, the answer to the fire problem begins with individual actions and reactions. We must change the habits that so commonly cause fires—careless smoking, negligent handling of gasoline, thoughtlessness around open fires, for example.

We also must become intolerant of conditions that lead to fire—such as defective heating equipment and frayed electric cords in the home and on the job. And we must take protective action, pre-planning home escape measures in case of fire and making

Ballet Classes

The Albany YMCA is offering three classes of ballet, limited to 15 students, and tuition is realistic and reasonable.

Pre-ballet classes will be given Monday afternoons at 4, for 5 and 6 year old children. Emphasis will be upon simplified ballet, with stretching and rhythmic movements to music. Classwork will be well within the scope of this age group.

Wednesday afternoon sessions will involve girls 7 and over, who are either beginning, intermediate or advanced students. This class will also start at 4 p.m.

A Wednesday evening session will be held from 7 to 8 p.m., for adult beginners or intermediates. No previous ballet training is necessary.

All classes will emphasize body placement, and individual attention will be a high priority item.

Miss Kitty Lyons, well-known Bay Area ballet instructor, will instruct all three classes. For additional information please call Miss Lyons, 848-0659, or the Albany YMCA, 848-6800, Ext. 25.

Beware of Unreputable Furnace Inspections

BBB/East Bay has received a volume of consumer inquiries and complaints generated by a few furnace companies located in the area. Some of these companies advertise their services, while others contact the public by telephone or on a door-to-door basis.

"Many consumers said they were interested in having their heating equipment cleaned, but the company representatives stated that it was unsafe and if not replaced immediately, could cause death from inhaling poisonous fumes," stated a BBB spokesman. "Some said the furnace did not work properly after it was cleaned and when the serviceman returned to check it, he said the unit was beyond repair and a replacement must be made immediately."

Other complaints report they were told replacements or extensive repairs were required. However, upon checking with local utility offices or other heating contractors, they learned that their furnace was not dangerous, did not require replacement, or extensive repair, but merely needed minor service, parts and/or adjustments.

The BBB official further stated, "There are countless reputable furnace sales and service firms throughout the East Bay. These companies, employing deceptive tactics represent only a small minority which unfairly reflect on the entire industry."

"In recent years a few individuals have used the inspection and

cleaning approach to gain entry to homes to sell the residents new furnaces. Such individuals implied that they were official inspectors when such was not the case," said the BBB spokesman.

"The salesman usually offers a complete inspection of the furnace with absolutely no obligation to the homeowner. There have been reported cases in which such 'inspectors' have damaged the thermostat, loosened valves, broken the fire walls, or partially dismantled the furnace and then stated it is in an extremely dangerous and unsafe condition and cannot be repaired. By such scare tactics he hopes to induce the homeowner to sign a contract on the spot for a new furnace at an exorbitant price."

BBB/East Bay cautioned residents to safeguard themselves against such experiences by asking to see credentials and carefully reading them. If they show that he represents a utility company or municipal department ask him to wait until you make a phone call. Call the company or department and ask if they have an inspector in the area. If he really is an official inspector he will not mind your taking such precautions; if he is a salesman using deceptive tactics, chances are he will be gone when you return from the phone.

East Bay residents are urged to report experiences of this nature to the Better Business Bureau. "It is important that BBB/East Bay have a record of consumer experiences so that it can keep a closer watch on this problem and take the necessary steps to bring it to an end," concluded the spokesman.

TUMBLING TUMBLERS

Tumblers are so called because at one time the drinking glass actually "tumbled."

Glasses at that time were made with pointed or curved bottoms and could not be set down until they were drained to the very last drop.

Holiday Fare

The best kind of hot weather dishes are those that perk up lagged-out appetites, provide the necessary nutrients and require little or no cooking. And these two new recipes developed in The R. T. French Company's Test Kitchens in Rochester, N.Y., qualify on all three counts, which makes them well worth clipping. They will make ideal additions to your holiday patio menu.

Potato-Salad Pie is a family pleasing combination of mashed potatoes, quickly and easily made with instant mashed potato granules, fresh vegetables and cold cuts. Prepare the pie early in the day, while it's still cool, and let it chill until dinner time.

A crisp Chef's Salad, with meat, cheese and hard cooked eggs, is an appealing meal-in-a-bowl. Add some crunchy cheese and garlic croutons and a creamy mustard dressing, nippy with prepared yellow mustard, and it's a superb and satisfying summer dish that can be put together in about 20 minutes.

Serve either salad with biscuits or rolls, milk and for dessert, fresh peaches and cream and spicy molasses cookies. Both these cool and quick menus are balanced to provide servings from each of the Basic Four Food Groups needed daily to keep healthy and fit.

Potato Salad Pie

- 1 envelope (5 servings) French's instant mashed potato granules
- 1 cup chopped celery
- 1/2 cup chopped onion
- 1/2 cup chopped radishes
- 1/2 cup chopped sweet pickles
- 2 hard-cooked eggs, chopped
- 1/2 cup mayonnaise
- 6 slices bologna or other luncheon meat
- 6 slices American cheese

Prepare potatoes according to package directions; chill. Stir in celery, onion, radishes, sweet pickles, eggs, and mayonnaise. Line 9-inch pie pan with bologna; top with American cheese. Spoon potato mixture into "pie shell." If desired, garnish with green pepper rings. Chill until serving time. To serve, cut wedges of pie. 6 servings.

Chef's Salad with Creamy Mustard Dressing

- 6 strips bacon
- 8 cups salad greens, washed and torn into bite-size pieces
- 2 tomatoes, cut in wedges
- 2 hard-cooked eggs, sliced
- 4 ounces sliced Swiss cheese, cut in strips
- 4 ounces sliced boiled ham, cut in strips
- 1 cup cheese & garlic croutons

Creamy Mustard Dressing: combine reserved bacon drippings with 1/4 cup French's Prepared Yellow Mustard, 1/4 cup dairy sour cream, 2 tablespoons vinegar, and 2 teaspoons sugar.

Chet Huntley Alive And Well In Montana

Chet Huntley, whose recent retirement broke up the NBC television news team of Huntley-Brinkley, is more familiar with a chain saw these days than with a microphone. Huntley, who lives in Montana now, is developing a resort at Big Sky. With winter setting in, he tries his hand at cutting firewood for the cold days ahead with a McCulloch Mini-Mac 6 chain saw. On hand to give advice is William McVaugh, area manager of McCulloch Spokane Company.

Can a world famous commentator give up the pressure-packed life of a nightly television show and find happiness in the country?

He can if his name is Chet Huntley.

The popular ex-newscaster, whose recent resignation broke up NBC television's Huntley-Brinkley news team, is now living and developing a resort at Big Sky, Montana.

"As you might suspect," Huntley says, "there is a considerable difference between Big Sky of Montana and New York City. But there's no question that this is what I like."

"It makes for a great day, in my opinion, to come out in the forestland, at the foot of these tremendous mountains, and do a little tidying up, saw a little wood, and clear out some trails."

In developing the resort and clearing land in the heavily timbered country, workers rely on McCulloch chain saws. Huntley takes an occasional turn cutting firewood for the

long, harsh Montana winter with a light-weight Mini-Mac 6.

The former newscaster is concerned about the effect of the resort on the land and the environment.

"Even though this is private property, no longer do you move in with heavy machinery, dynamite, and bulldozers and start knocking down trees, moving earth, and damming up streams," he says.

"Perhaps, we Americans have discovered at long last that you've got to treat the land, and the sky, and the water, and the earth with a certain amount of respect. And certainly with some tender, loving care."

The dinner will start at 8 p.m., followed by dancing and an outstanding entertainment program. A social hour will be held prior to the dinner.

Tickets may be obtained for the dinner-dance from the banquet chairman, Bob Wallace, 146 Rockridge Road, San Carlos.

The 1971 Admission Day celebration, sponsored by the Native Sons and Native Daughters of the Golden West, will be the last California birthday to be celebrated on the exact date of the state's entry into the Union. A bill, now in the state's legislature, calls for the event to be celebrated in the future on the second Monday in September.

Order Cards Now Be Alert For School Children

Christmas cards, extending holiday greetings in both the traditional and contemporary form, are now available through the American Cancer Society's Alameda County unit.

Laurence P. Corbett, president of the local unit, announced that an outstanding selection of seven new greeting cards, with themes ranging from the Nativity, sprightly elves and contemporary peace messages to a beautiful ecumenical card embracing the good wishes of all faiths, are currently on display at the Society's local offices.

All cards tastefully indicate that a gift has been made to the American Cancer Society by the sender.

"We are not in the business of selling Christmas cards," said Corbett, "but seek to find an appropriate way for the public to help support the programs of the Society during the traditional season of giving. There is no established price per card," he said, "however, our costs are such that a contribution of less than 25 cents per card will not provide support for the Society's programs and would be, therefore, unacceptable."

Corbett pointed out that the total contribution for the greeting cards is tax-deductible; however, for those who choose to have their cards imprinted, there will be an additional charge, payable to the printer, which will not be tax-deductible.

A brochure containing three of the new designs is available upon request, and the entire selection may be seen at the Society's office, 477 15th St., Oakland, or 22477 Maple Court, Hayward.

Reduce Auto Thefts

Governor Ronald Reagan has signed into law a bill aimed at cutting down car thefts.

The measure makes it a felony for any person to display or possess any blank or incomplete ownership or registration certificate with fraudulent intent.

The bill, authored by Contra Costa County Senator, John Nejedly, is aimed at thieves who steal or forge pink slips or other official documents for the purpose of passing off a stolen car as personal property.

Since children will be flocking back to school soon, says the American Automobile Association, the nation's motorists might well begin boning-up themselves on a subject that could be labeled "child-centered defensive driving."

During the summer, when children vanish from school zones and school buses leave the traffic lanes, drivers become less aware of young pedestrians.

Now they must be on guard for thousands of youngsters on their way to and from the nation's classrooms — especially those tots who are on their own for the first time.

Motorists should remember that many children know next to nothing about pedestrian safety rules. And even those who do are likely to forget them when in pursuit of a rolling ball or a runaway pet.

The AAA also has four additional reminders for motorists:

—When in a school zone, watch for new reduced speed limit signs that are installed in many communities as the summer months end.

—Remember the law about stopping when you see a halted school bus, and, at the same time, keep in mind that this rule may condition children to dart out in front of a public bus.

—Be on the lookout for youngsters riding bicycles, they can appear very suddenly from a blind spot near your car.

—If you are a parent, help your child by mapping out his safest walking route to school.

IT'S THE YEAR 1934!

The depression is easing thanks to FDR's New Deal, and lots of unemployed young men have joined the CCC, doing conservation work. For amusement, most people either go to the Albany Theater (any seat-any time—15 cents), or listen to Jack Benny and Fred Allen feud on KPO. It's a great town for kids with ball games going on vacant lots, but C. M. MacGregor is fast filling them up with his "one-nail" homes. Over by the Park, Albany's new Herbert Hoover Jr. High, whose two story wooden building is called "The Barn," is adding a grade each year, but high school students take the big red train up Solano, connect with the Snettuck train, and go to Berkeley High. The more adventurous ride the cowcatcher of the Westbrae Dinkey. On Saturdays, 5 cents will take you to Neptune Beach in Alameda on the No. 2 streetcar on San Pablo.

Political factions fight for control at the antiquated storefront City Hall, but Charlie Graeber, Bert Hill, Ben Mowday and Frank Hays keep getting re-elected. Myrtle McLean and Grace Higgins keep the budget and collect the taxes. (They're sure high these days—why a 5 room house just went up to \$50 per year. When will it stop?) Police Chief John Glavinovich stands on San Pablo and Solano keeping order, while Stan Williams, Ken Nickerson and Frank Davis chase speeders on their Harleys. Boy, is that Davis a tough cop! Judge Hickman presides at Traffic Court. Over at the barn-like Fire House, the cow-blast sounds for noon, and Fire Chiefs Ohlgren and Riley alternate the job every year. They've got a couple of kids there who look like good future chief material, Fred Pimental and Gerald Browne.

Jack O'Leary is busy paying the streets.

Local business is thriving, too! Max Etingoff has the S.P. corner store at Solano and San Pablo. Dagna's and Joe Villa have the best produce in town, with strong competition from Danny Chelemados. Fred Repp dispenses pills and the Post Office has a substation in his store. Oley sells nickel sundaes in his Drugstore on Carmel. Kids have paper routes for the Tribune, Oakland Post-Enquirer, San Francisco Call-Bulletin, and the San Francisco News. Local papers are the Albany-Enterprise, Albany Argus-Spokesman, and there's a struggling new paper just starting called the Albany Times.

That was 1934. Today, in 1971 times have changed, but the ALBANY TIMES is still here, carrying on as Albany's friendly home-run newspaper. May it continue for many more years. Congratulations, Ila, for a great job.

How to WARM UP A cold pilot.

Even the most faithful pilot light can go out. So check your pilot first if one of your gas appliances or furnace isn't operating.

Most gas ranges have more than one pilot. If you're not sure where they're located, consult your owner's manual. (If you need help, call us.) Before relighting a pilot, be sure all burners are turned off. Allow a few minutes for the air to clear, then touch a lighted match to the pilot opening. The pilot should light with a small, blue flame, and the burner should light when you turn it on. If the burner fails to light, call us. We'll send a man out to check it.

Modern gas water heaters and dryers shut off completely if the pilot goes out. And most models bear manufacturer instructions for relighting. If you can't get the appliance operating, call us or the installer.

If the pilot of any

gas heater or furnace goes out, TURN OFF THE MAIN BURNER VALVE FIRST. Allow ten or fifteen minutes for any accumulation of gas to clear before relighting pilot (following the instructions on the equipment). With the pilot relighted, the furnace or heater should operate. If it won't, call us.

PILOTS NEEDN'T GO ON VACATION. Some folks prefer to shut off furnaces and water heaters during the summer or vacations. However, it's more convenient to turn off the main burner, but not the pilot. When

the pilot is lighted, your furnace is ready to work on a cold day. Most hot water heaters can be turned to "PILOT" when not in use. This keeps the pilot lighted and prevents the main burner from heating water.

WARNING: Never look for a gas leak with a lighted match or candle. If you suspect a gas leak, call PG&E right away and we'll check it.

If you call for a PG&E service man to check out a gas leak or an appliance, have him show you where your pilots are, and how to relight them. If an appliance needs repairs or parts, an appliance man, plumber, or furnace man should be called.

LAW IN ACTION

CRIMINAL ACT AND INTENT

As a rule, to charge someone with a crime the district attorney must show that the accused did his act on purpose. Not always that he meant to break the law, perhaps, but that he did not do so accidentally or unintentionally.

For example, the fact that a person acts negligently does not always mean that he also committed a crime. However, "criminal negligence" is enough to show a crime. An example: Harry takes pot shots at passing motorists and drives 100 miles an hour down a busy street endangering life and property. He may be guilty of a crime.

A special rule applies to some crimes, such as vehicle manslaughter. The negligent driver who runs someone down in the crosswalk may be convicted of manslaughter. He need not be drinking, speeding, or doing anything that shows gross negligence. His mind may merely have been wandering when he failed to see the pedestrian. Still that death is manslaughter.

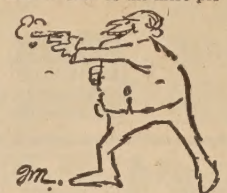

For example, a sleepy, inattentive driver hit a parked

truck. The impact killed his passenger and the district attorney charged him with manslaughter. A higher court upheld his conviction even though the driver's act was only that of ordinary negligence.

"A negative act," caused by neglect, may also be a crime. For example, the person who neglects to file his income tax or the doctor who fails to report a gunshot wound to the police is guilty of a crime.

The motorist who fails to aid the victim of an auto accident involving his car is also guilty of a crime. So is the failure to support a child.

Sometimes the criminal "act" might be an agreement to do something criminal as in a conspiracy, or in encouraging someone to commit a crime. "Acts" may also be an inaction such as the mere pos-

session of something prohibited by law such as a gun, drug, or stolen goods.

Note: California lawyers offer this column so you may know about our laws.

Dangerous Toys

Government figures show that about 700,000 children in the United States are injured each year by toys. And this does not even include bicycles, swings or slides.

Congressmen charge that many dangerous toys carry no warnings to either parent or child.

Among those listed as dangerous were toys with sharp cutting edges, those easily shatterable, toys with high explosive or flammable potential and lethal electrical hazards.

Some "psychologically dangerous" toys were toy hypodermic needles, plastic guillotine kits, kits with simulated organs with painted blood dripping from them, and others suggesting violence and gore.

HINK SAFE

Summertime fun in the sun should be tempered by thoughts of safety, suggests Liberty Mutual Insurance Company. Drowning is the fourth leading cause of accidental death. Do be careful. Don't be a statistic.

CF Victim's Story Of Faith and Research

Leslie Pence, Jr., of San Leandro, will be 26 in December, is married and employed as title officer for Title Insurance and Trust Company in Oakland.

In his own words, "Life is glorious!"

His age, marital status and full-time employment are unusual because Leslie Pence has Cystic Fibrosis, a chronic, non-contagious disease of the exocrine glands, which ranks second only to cancer as the disease causing the greatest number of deaths in children.

In 1945, when he was six months old, he became the first person to be diagnosed as having Cystic Fibrosis at Children's Hospital Medical Center in Oakland, where today he is one of the oldest patients and returns for periodic checkups.

He credits most of his happiness to his wife, the former Linda Wilson of San Leandro, to whom he was married March 10, 1966, and to the confidence and understanding of his boss, Edward Coffey.

"I know I'm in better physical condition today than when I was a child," he says. In addition to the various medications and vitamins he must take daily, Leslie has been weight-lifting and having regular massages to reduce his tensions.

"I've made fantastic improvement in loosening mucus, gaining

four pounds and sleeping better," the young businessman said. "I'm thinking of joining a bowling league and I'd like to get a boat."

He continued, "I love my job and I'd like to go into management. I have renewed confidence in myself. In three and a half months, I haven't missed a day of work. It's as if a whole new world has opened and said to me, 'Come and get it.'"

Although Children's Hospital has had a chronic respiratory disease clinic for many years, it was not until 1962 that the Cystic Fibrosis Center was opened, with Alan D. Mitchell, M.D., as Center director. It and two other Bay Area centers are supported by grants from Northern California chapter of National Cystic Fibrosis Research Foundation. Thanks to improved therapeutic measures, many patients are now living beyond the average age of 13 into their twenties and beyond.

"I'm not afraid to die because I have faith," Leslie said, adding, "I don't mean tomorrow, but before my wife. I can accept that; however, I know I'm improving. I have this tremendous sense of well-being."

Leslie hopes his story will provide encouragement for other CF patients and their families.

"I'm thankful for the medications and I honestly believe CF can be controlled. Perhaps they can use me and others to help find a cure."

"Hopefully, we will see the day when all CF patients can breathe a normal life as well as live a normal life."

Adult School Classes Open

1971 marks the 30th year that the Albany Unified School District has scheduled adult education classes. The Adult School is organized primarily to serve a wide variety of immediate and long-term individual and community educational needs. Over 100 courses will be offered this month, leading to such varied goals as job improvement, a high school diploma, and self-enrichment.

The Fall Quarter of the Albany Adult School begins next Monday, Sept. 13. A wide assortment of day and evening classes has been scheduled. Academic subjects include English, mathematics, science, history, and foreign languages. A large selection of business, homemaking, physical conditioning, parent education, and arts and crafts classes will also convene. Adults with specialized interests might prefer enrolling in such courses as aviation, high speed reading, law for layman, automotive fundamentals for women, celestial navigation, graphic arts, civil service, woodcarving, creative retirement, macramé, or photography.

If your personal routine and schedule for the Fall is still unresolved, why not register for an adult education course? Most evening classes will meet on the campus of Albany High School, 603 Key Route Blvd. A single tuition fee of \$6.00 covers the tuition for one or more courses. Those wishing further information should call 526-6441. Fall Quarter class schedules and course summaries are available upon request.

Newlywed James Hermanns Honeymoon at Lake Shasta

NEWLYWEDS, Gayle and Jimmie Hermann, toast their future. —Stagg Photo.

Married in an afternoon ceremony at Our Lady of Refuge Church in La Honda, James Jerome Hermann, son of Mrs. Alma Hermann of Albany and the late Jack Hermann, took as his bride the former Gayle Marie Junkin of Milbrae.

The daughter of Mr. and Mrs. Donald Junkin, Gayle was married in a redingote-styled chapel length gown of silk organza, with a scalloped lace bateau neckline and full bishop sleeves, cuffed and laced. Both her train and fingertip length mantilla veil were also trimmed in chantilly lace.

Serving as her sister's maid of honor, Carol Ann Junkin wore a lavender gown of polyester organza.

The best man was the groom's close friend and former school mate, Leroy Cisneros of Richmond. Two other former school mates, Alan Liner of Monte Rio and Steven Noe of Albany, served as ushers.

The newlyweds are honeymooning at Shasta Lake, and will be "at home" in San Mateo upon their return.

Schools Open -- Drive Carefully

Children will be heading back to school this month, many of them will be going for the first time. The California State Automobile Association urges motorists to drive with special caution near schools.

Although the School Safety Patrols, the police and adult guards do an excellent job in protecting school crossings, there are always those corners that are unprotected, reminds the auto club.

Do your part when you drive by slowing down to 15 miles per hour near schools and being especially alert for youngsters who may run into the street.

Bicycle Safety

Youngsters who own bikes—especially those who ride them back and forth to school—should be provided with a "safety code" by their parents, advises the American Automobile Association.

The AAA says that as the number of cars on the road increases, the number of bicycle mishaps also soars. For example, in 1963 there were 573 deaths as the result of auto-bicycle accidents, while in 1969 the total increased to 820.

A recent study by the National Safety Council found that the bicycle-motor vehicle accident rate is about 50 percent higher among youngsters from 10 to 14 years of age than those below the age of 10.

That's why the safety code is so important, says the AAA, which recommends the following points be included in it:

A bicycle driver should always: Think of himself as a driver, and responsible for his own safety and the safety of others on the road.

Signal for turns and slowing and stopping with the same hand signals as a motorist would use.

Learn and obey all traffic signals, as well as the direction of officers guiding traffic.

Always ride one to a bicycle, and in the same direction as the flow of traffic.

Always keep both hands on the handlebars, unless signaling.

Never drive at dusk or after dark unless the bike is equipped with a strong headlight and a red tail light reflector, and a horn or bell.

Always wear light-colored clothing after dark.

Keep the bike in top operating condition.

Parents should also be familiar with local laws affecting cyclists. Some require the licensing of bicycles, some forbid their use on sidewalks—and some give parents the responsibility for equipping their child's bike with proper lights and warning devices.

Albany High

Couple Engaged

The engagement of Fredericka Ellen Partain and Gary Everett Carpenter, was announced at a recent dinner party, given by her parents the Kenneth Karl Danielsons of El Cerrito.

"Rick," as the bride-elect is known, is a 1969 graduate of Albany High School, and also attended Contra Costa College for two years, before accepting a position with an Oakland firm.

A past honored queen of Bethel No. 52, Berkeley, International Order of Job's Daughters, the bride-to-be is the sister of Karl, Ken and Don Danielson.

Gary is the son of Mr. and Mrs. Arthur Overman of Albany, and brother of James, Ron and Mike Overman, and is also a 1969 graduate of Albany High. He has studied in Australia and will resume his studies this fall at the University of East Texas, where he is studying veterinary medicine.

The couple plan a November 27th wedding.

Ivy League College Admissions Decline

Applications for admissions to the prestigious Ivy League colleges this fall, have declined by almost seven percent, despite vigorous recruitment programs.

Percentage of change from last year reported a drop-off for five, with the greatest decline affecting Yale, 18.7 percent; Harvard, 12.5 percent, and Pennsylvania, 10 percent.

All accepted more than capacity on the traditional principle that many students had made applications to more than one college and would decide which to attend after they had been accepted.

Law Classes

A class entitled "Law for the Layman," covering Wills and probating estates, including inheritance and estate taxes, and deeds and deeds of trust, the rights of husbands and wives, advantages of joint tenancy property, contracts, an other related legal subjects affecting every day practical law, will be conducted in the Albany Evening School, located at 603 Key Route Blvd., Albany, by Stanley R. Kendall, practicing Berkeley attorney.

The class will meet on Thursday, September 16, starting at 7 p.m. and terminating at 9 p.m. and will be for the duration of six (6) to eight (8) consecutive weeks on Thursday evenings.

The class is especially designed to inform the public as to the different types of Wills, the taxes involved upon death, and taxes involving gift transfers of property, along with the statutory costs of probating estates.

PO Announcement

The United States Postal Service has announced an action designed to help mail-order firms comply with President Nixon's program for stabilizing prices.

Under a temporary provision, the Postal Service will permit mailers of catalogs sent at bulk third-class rates to enclose an amended price list with their catalogs without paying additional postage.

This "errata circular" will thus provide mailers a simple and efficient means for correcting catalogs which had been prepared with higher prices in advance of the President's order.

Such circulars will contain a list of catalog items affected and price corrections, but may not contain advertising.

The temporary provision for the errata circular will be withdrawn when circumstances warrant.

Backpacking Trip

Pastor Ronald A. Greilich, Albany United Methodist Church, recently spent a week on a backpacking trip in the Emigrant Basin Primitive Area, between Sonoma Pass and Yosemite.

He was accompanied on trip by 13 young people, members of the church's youth group.

Those on the trip included Janet, Sheryl and Jim Berli, Reed, Danny and Kevin P. Lloyd, Hawkinson II, T. Kemp, Rhonda and Sheryl, Chlich, Craig Hazelton, Shookmyer and Jim Campbell.

Room Still Available

Soaring college enrollment anticipated for this fall do not necessarily mean that applying for admission need despair of finding a good school that will accept them.

Only a few weeks ago there were upward of 600 of the accredited four-year colleges in the country, as reported by magazine, Changing Times, still had places available.

A list of these colleges is available and may be obtained by sending \$1 (no stamps) to Changing Times Reprint Service, 1111 H Street N.W., Washington, D.C. 20006.
